British Red Cross

The British Red Cross is a volunteer led humanitarian organisation that helps people in crisis, whoever and wherever they are. We enable vulnerable people at home and overseas to prepare for and respond to emergencies in their own communities.

Stigma and Migration

FREE 1- 4 week Programme Exploring Migration

We offer a 1– 4 week programme where young people will have the opportunity to explore migration and the stigma that surrounds it.

Education that contributes to SMSC: Interest in exploring, understanding of and respect for cultural diversity and the extent that they understand, respect and celebrate diversity; PSHE: rights, responsibilities, change and resilience, equality and diversity.

Our educators can deliver sessions that:

> Create a better understanding of migration and the stigma that surrounds it

> Participants will feel more confident to inform others about migration

Alternatively, we have a fantastic range of free, imaginative teaching tools that are simple to use on our website: www.redcross.org.uk/What-we-do/Teaching-resources Our online resources cover a wide range of topics from Refugee Anti-Stigma to First Aid. These resources have been designed to be used in Citizenship, PSHE, and tutor

For more info and how to book contact...

BritishRedCross

Our programme will cover:

> Why people migrate?

> Who are migrants?

> Refugee Journeys

> Positive images

> Some personal stories of migrants

> How migrants are portrayed in the media

What you can expect:

> Engaging and interactive sessions using thought-provoking age appropriate resources e.g. games, videos, images, discussions

> British Red Cross educators who have been fully trained in facilitation and safe-guarding

We also offer:

Support to deliver British Red Cross Youth Education resources to the young people you work with. Free of charge, we can provide:

> Awareness of our online resources

> Co-teaching

> Professional Learning; contributes to CPD
